Seventeen billion dollars is the debt

of Great Britain according to late

reports and still the war goes on.

An ice famine in Toledo, Cleveland,

Defiance and even Napoleon suggests

that an ice plant for the manufacture

of artificial ice in these cities might

help out and make it possible to get

ice without borrowing your neighbor's

baby to show the ice man.

Great Britain and her allies are negoti-

ating for the entire 1917 out put

of the principal copper producers of

the United States. American producers

recently refused an offer of 21

cents a pound for this metal. Save your

pennies, they are made of copper.

More than a million jobs in the

United States, it is authoritatively

stated, are closed to the man who

drinks intoxicating liquors. And this

means that the employer shall not only

abstain while on duty but that he shall

not frequent drinking places while off

duty.

Of course it is none of our business

but we cannot refrain from advising

parents of young children to keep

them out of the cities these days and

in so far as possible to refrain from

going themselves except on matters of

important business. An ounce of

prevention is worth many pounds of

cure in the case of infantile paralysis.

After looking over the recent Pri-

mary Election results somewhat care-

fully we have come to the conclusion

that there are a good many "alpha

betical voters" in the State. It seems

to be a whole lot easier to put a cross

opposite the first name you come to

on the ballot than to make an effort

beforehand to learn something con-

cerning the qualifications of the vari-

ous candidates. Blessed is that can-

didate whose name begins with A or

even B.

Our neighboring city, Toledo, seems

to be in "hard luck." Not enough

money to pay for necessary work or

even essential work such as maintain-

ing an adequate medical staff to at-

tend the sick among those of the city

population who are unable to pay for

medical attendance. Four of the six

city physicians have been dropped

from the service on account of lack of

funds and this in the face of a threat-

ened epidemic of infantile paralysis.

The exiled Armenians who are be-

ing driven about over the deserts of

Northern Arabia and the lower Eu-

phrates valley by the Turkish au-

thorities are reported by competent

witnesses to be so reduced by star-

vation that they are forced to eat

grass, herbs, and locusts and in de-

perate cases, dead animals and even

human bodies. The death rate from

starvation and sickness is very high

and is increased by the brutal treat-

ment of the authorities. And this,

not in the year 976 B. C., but A. D.

1916.

The threatened strike of 400,000

railroad employees which was averting

last Wednesday by the acceptance of

Federal mediation constituted a seri-

ous menace directly and indirectly to

the welfare of all the citizens of this

country. Should the train service men

of this country strike it would not only

stop the transportation of food stuffs

and fuel but as well of all commodi-

ties in use among a population of

more than one hundred million. Such

a strike passes beyond a private af-

fair as between the employees and the

railroads and becomes a matter in

which the country as a whole has a

direct interest. In such an emergency

the President of the United States has

the undoubted right and it becomes

his duty to call a halt in all proceed-

ings that tend to interrupt the rail-

road business of the country.

DANDRUFF
